

# Seats Achieve Both High-Quality Design and Performance

Seats featured in the Lexus LC exhibit innovative design and superior hold performance as well as a high degree of ride comfort.

Vehicle: LEXUS LC

## Sports Seat

This seat allows the driver to maintain a stable posture while providing top-class comfort. The entire seat is created using the Foam In Place Method\* for improved hold performance and vehicle operability.

Standard with the LC500h/LC500h "S Package" and LC500/500 "S Package"

\*Foam In Place Method: Method whereby the sewn seat cover is first placed inside the pad mold, followed by injection of the urethane material into the mold and expansion of the foam.
