Curtain-shield Airbag

Joint development partner: TOYODA GOSEI CO., LTD.

側方からの衝突時にバッグを展開させ、乗員頭部を 保護し、頭部の車外への飛び出しを防止します。

In the event of a side impact, the bag inflates to protect the occupants' head and prevent the head from protruding outside the vehicle.

うれしさ Advantages

▶袋織り構造のため、縫製不要、コンパクト、膨張持続時間が長いことが特長。

The hollow weave construction eliminates the need for sewing while providing improved compactness and extended inflation periods.
