

Toyota Boshoku Establishes New Plant for Automobile Interior Components in Czech

Kariya (Japan) 18th May 2012 – Boshoku Automotive Europe GmbH (Germany, “BAE”), a subsidiary of Toyota Boshoku Corporation (President Shuhei Toyoda) will establish its first new manufacturing company “BOSHOKU AUTOMOTIVE CZECH s. r. o.” in the Czech Republic for automobile interior components. This is the first manufacturing site in the Czech Republic for the Toyota Boshoku Group.

BAE started its operation in July 2011 after Toyota Boshoku acquired the automobile interior business of European parts manufacturers. BAE develops and produces interior components such as door trims and headliners for major German automobile manufacturers including BMW, Daimler AG, Volkswagen Group and Opel.

Toyota Boshoku group will continue to provide more appealing, comfortable and safety interior space for customers all over the world by improving its unique technologies that meet all types of customer needs and establishing optimal production and logistics systems through business with global automobile manufacturers.
