

### **Unauthorized access to subsidiaries**

**Kariya (JAPAN) – June, 10, 2023** –Toyota Boshoku Corporation have confirmed that some data had been stolen from Toyota Boshoku Europe, our European subsidiary, through unauthorized access by a third party due to the vulnerability of the program of the data transfer system. We corrected the program bugs and implemented countermeasures against the same types of unauthorized access. We have also confirmed that there is no impact on other facilities. The details are still being investigated. However, we have not seen any impact on operations at the moment.

We sincerely apologize to our customers and everyone for causing concern, and inconvenience this may have caused. Based on this incident, the Toyota Boshoku group will once again strengthen security measures and work to prevent recurrence.
