■ What are the “Signature Pavilions”?

Thematic projects are projects that symbolize and represent Expo 2025 Osaka, Kansai, Japan, and the pavilions created by eight experts are also the “Signature Project” that deepens the theme through their respective philosophies, so they were named “Signature Pavilions”. Eight thematic project producers will interpret and develop the theme of Expo 2025, “Designing Future Society for Our Lives”, from their own unique perspectives, and construct pavilions that will be passed on to people living in the future.
