

Cell : High Power & Durability

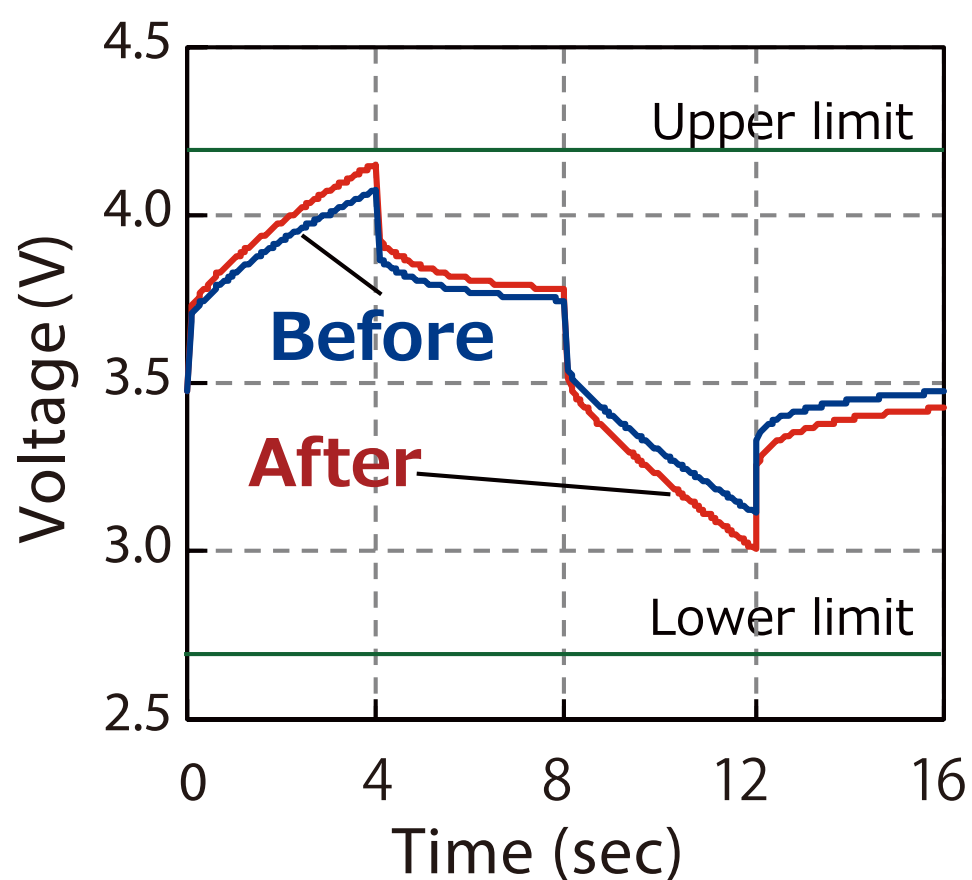

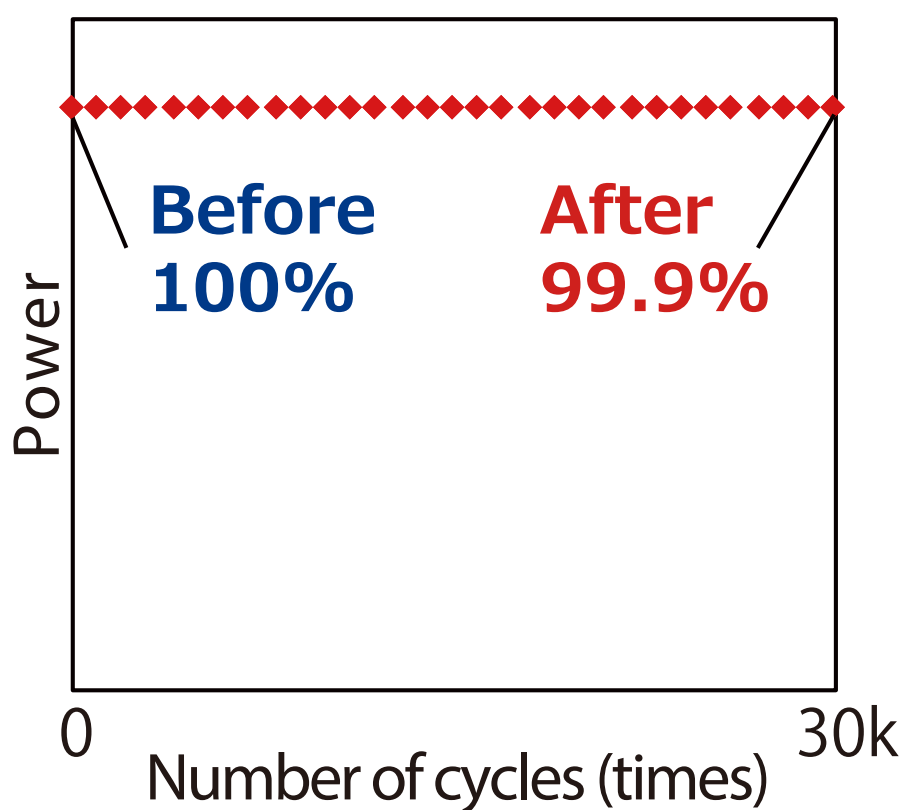

High power :

150C
at equal energy density
HV LiB

Durability at 150C :

Power retention 99.9%
after 30k cycles

Package : Small & Light

Small :

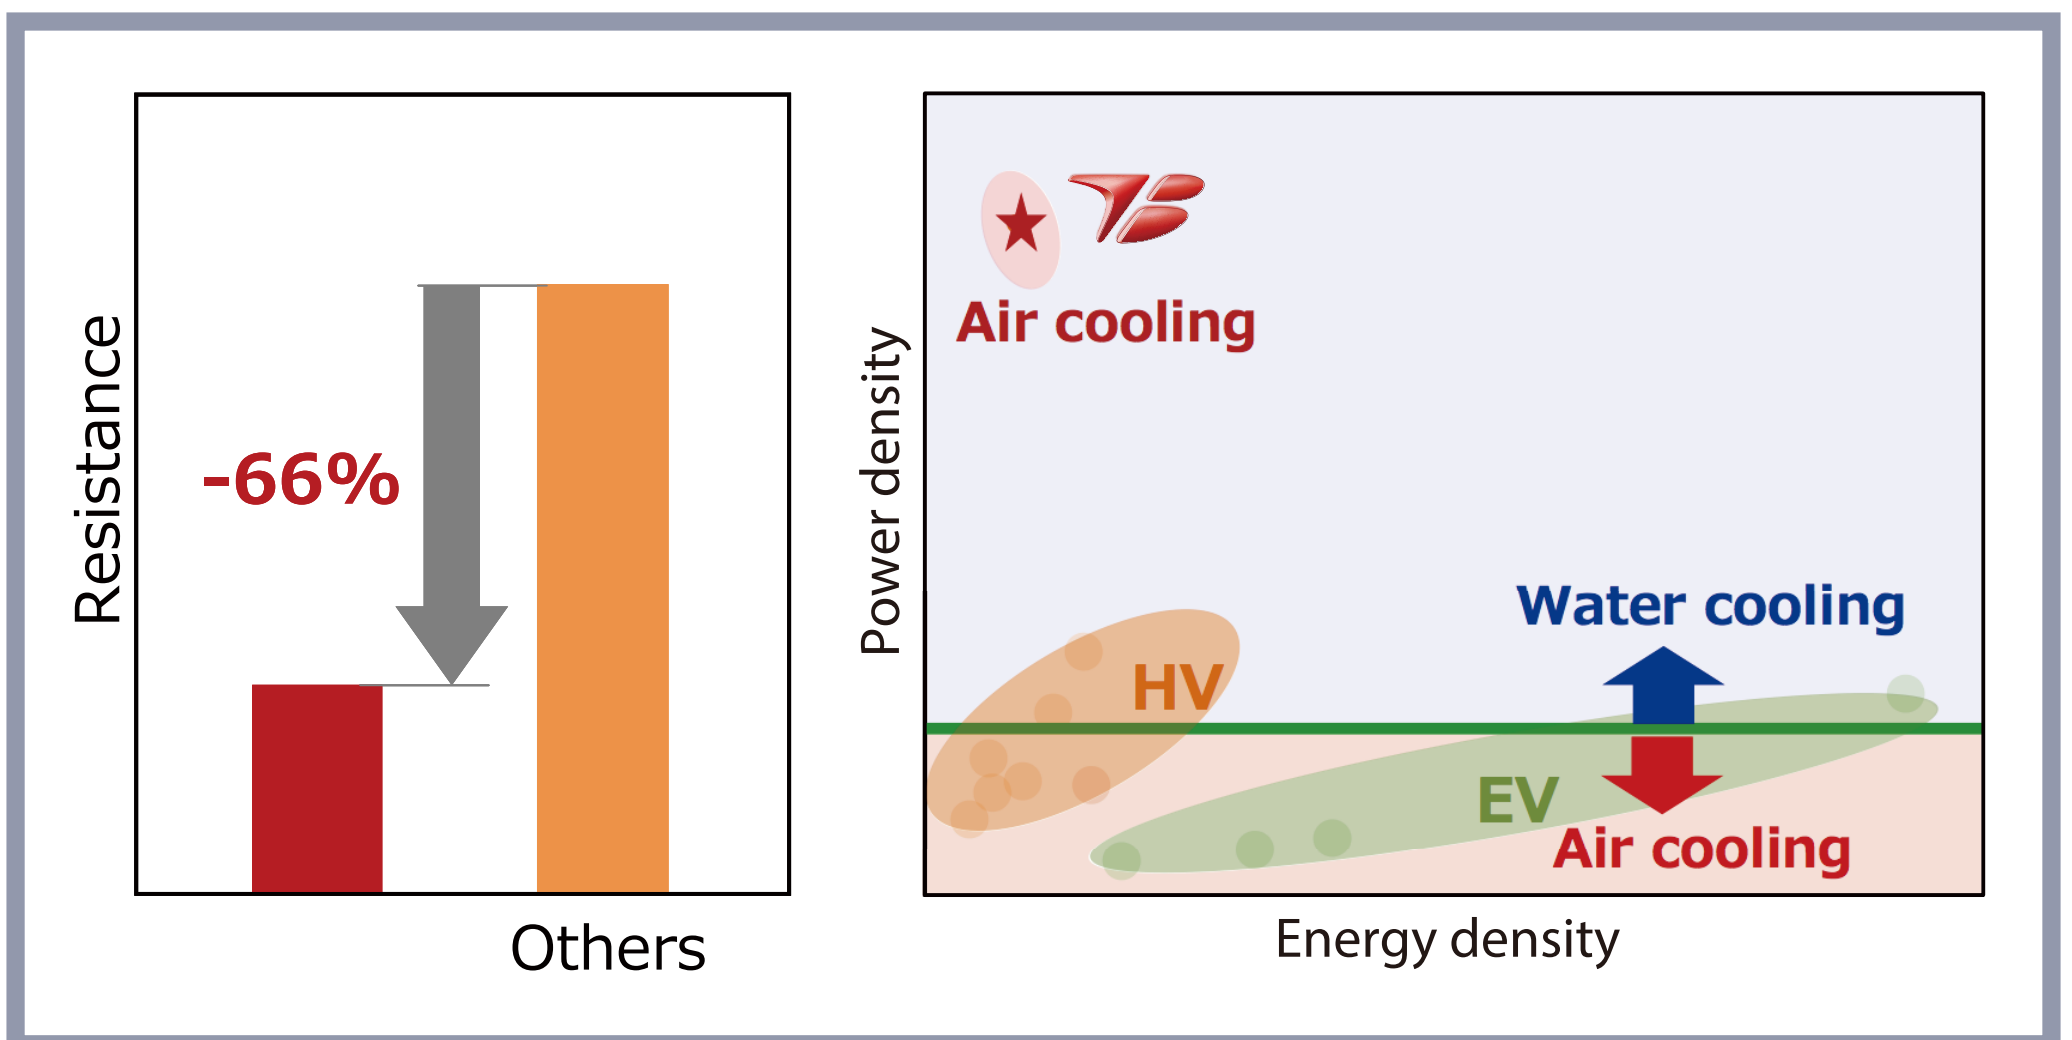

Downsize by half

Light :

25% weight reduction

Flexible installation :

Low resistance → Air cooling

Proposals : For Hyper Sport HV

For Hyper Sport HV :

**Repeatable full motor output
with high power & durable  LiB**
