

Nunokabe is a soft wall decor for home interiors. These panels embody Toyota Boshoku' s unique skills with textiles, originating in our root business, and the knowledge of our current speciality in car seat covers and interior design.

Modules of 45cmx45cm panels can be arranged and fixed to suit any room. Our selection of fabrics allow for unique and free coordination with each other, providing endless design possibilities for a highly fashionable room. Nunokabe is also easy to fix, thus making it possible for our customers to carry out the installation.
