

キャビンエアフィルター (PM2.5対応)

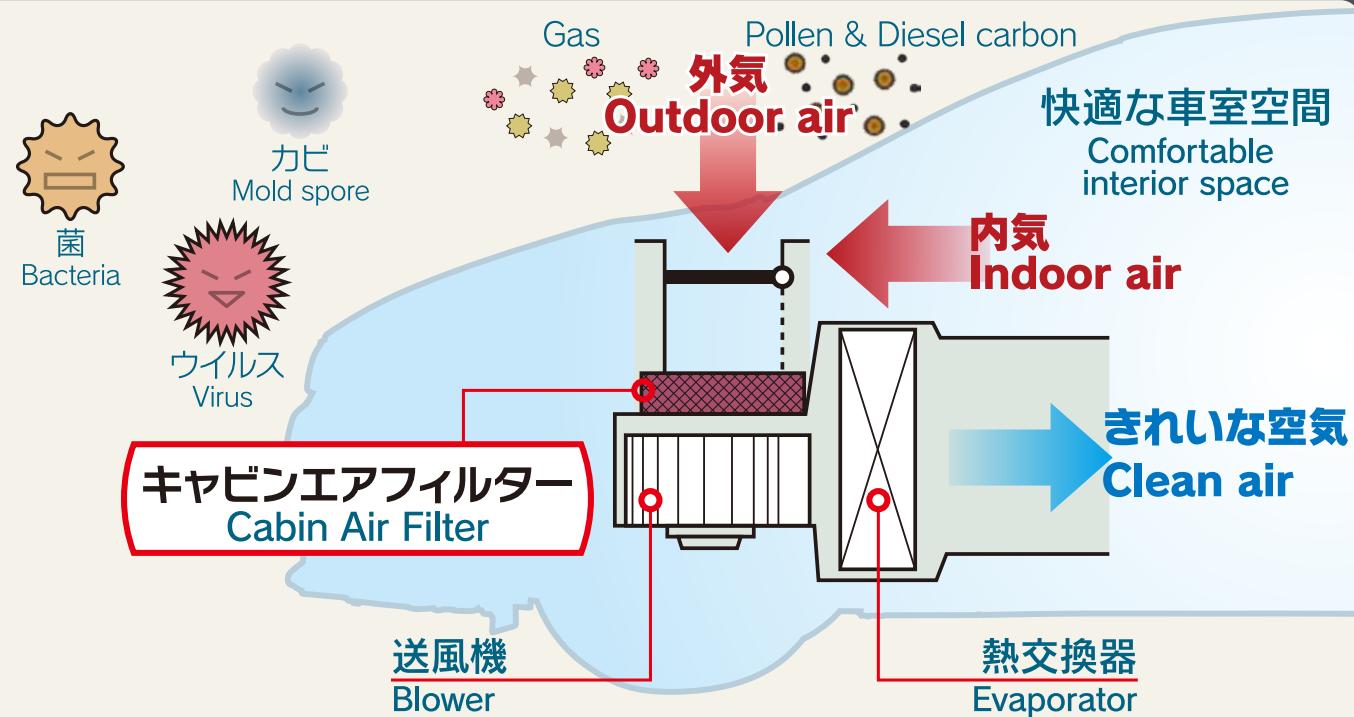

販売は(株)デンソーを通して行っています。

Filter for Air Conditioning System (Available Particulate Matter 2.5)

DENSO branded product

除塵、脱臭、抗菌機能に優れたフィルターにより、快適な車室空間を創出。

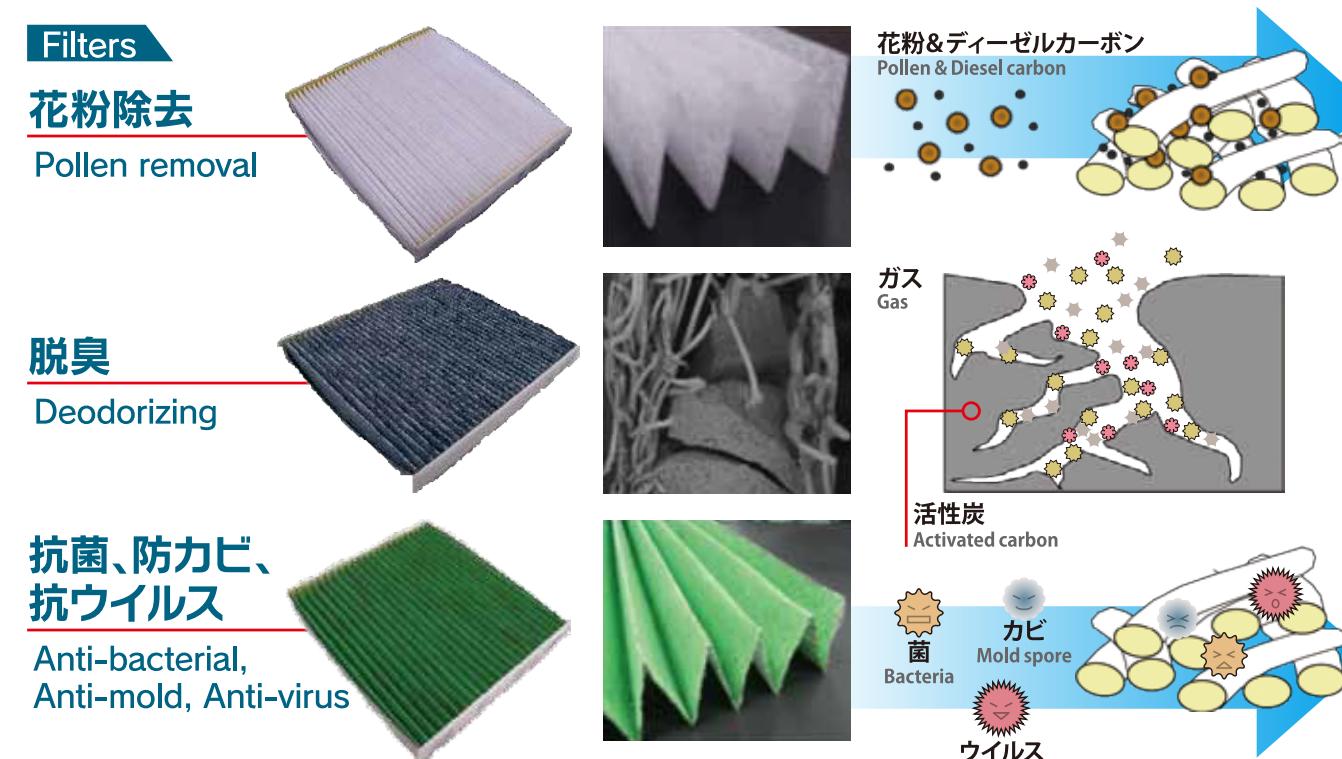

Create comfortable cabin interior space with usage of filters that have superior dust exhaustion, deodorization and antibacterial functions.

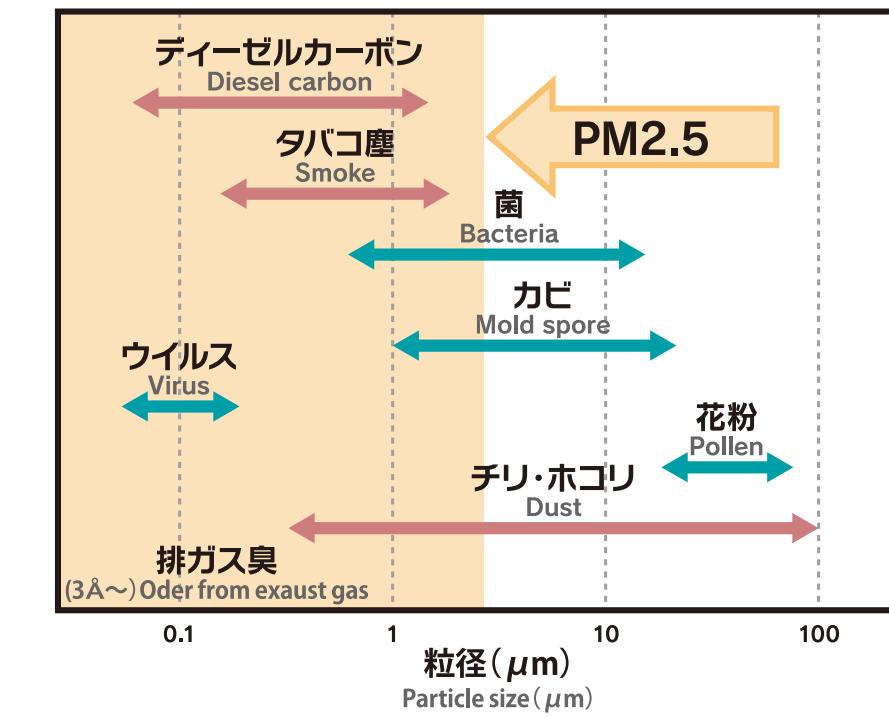

特長 Feature

高性能な不織布を採用し、各種ニーズに対応

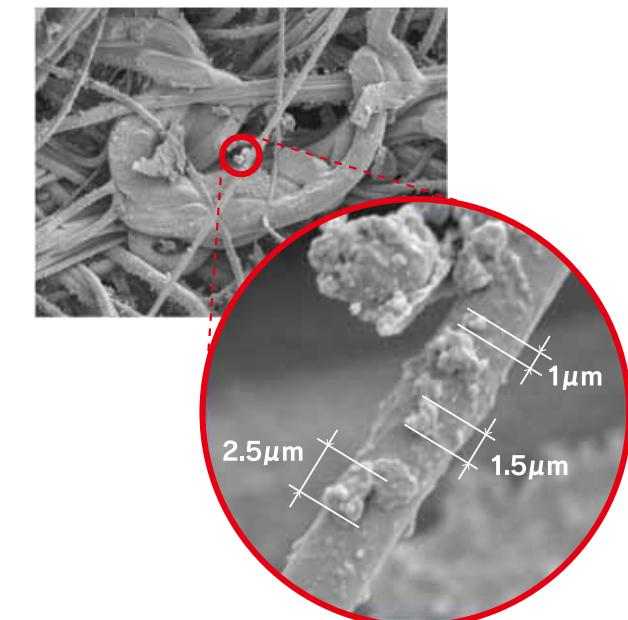

Support various needs by adopting high performance nonwoven fabric

様々な微細物質を捕捉 Catching particle

～PM2.5粒子捕捉～ Close-up particulate matter 2.5 in filters

効果 Results

除塵、脱臭、抗菌などの各機能を向上させながらも、低圧力損失(風量維持)を両立し、エアコンの性能維持に貢献

Contribute to maintaining performance of air-conditioner by satisfying improvement of both functions (dust exhaustion, deodorizing, antibacterial) and low-pressure loss (airflow maintenance)
